

CSA INDIVIDUAL MEMBERSHIP

Individual Membership is aimed at those field engineers who are actively involved in the commissioning process. These may be from the mechanical, electrical or controls fields.

THIS IS THE ONLY CATEGORY OF MEMBERSHIP WHERE YOU ARE GRADED.

To apply for Individual Membership of the CSA, simply download an Individual Membership Application form (see below) and send it to the CSA office with your current C.V. and photograph. This is then passed to our Assessment Panel for approval and grading. Once approved, you will receive your membership pack which contains a membership I.D card with your name, photo, membership number and grade. You will also receive a Certificate of membership which again, gives your membership number and grade (see attached examples below).
