

MAKING BUILDINGS WORK

CSA MEMBERS / NON MEMBERS - *Get started on one of the CSA courses now!*

CSA DISTANCE LEARNING COURSES (DLCs) A, B AND C

If you would like to start on one of our DLC's or want to put any of your engineers on the courses, all you need to do is go to the CSA website: www.csa.org.uk
- click on the Training tab then Distance Learning Courses and download the appropriate Enrolment form – complete the form and e-mail it to email: office@csa.org.uk and we will get you started on the course.

Each student is given one year to complete the course and allocated a tutor who they can contact at any time. *(please note: you are charged an overdue fee if you do not complete the course within the allocated time).*

You will also find listed on the website all three course contents and the cost of each DLC is on the Enrolment form. The courses are done electronically and all homework is emailed to the CSA office and passed to your tutor for marking.

For any further information call the Office: 0208 080 9679 or email office@csa.org.uk.
