

MAKING BUILDINGS WORK

CSA DISTANCE LEARNING COURSES (DLCs) A, B AND C

I am pleased to let our CSA members and non-members know that all the CSA staff are still working and can provide you with the Distance Learning Courses as usual.

If you would like to start a DLC or want to put any of your engineers on the courses, which are done electronically, all you need to do is go on the CSA website www.csa.org.uk click on the Training tab and then Distance Learning Courses and download the appropriate Enrolment form – complete this and e-mail to office@csa.org.uk and we will ensure you get started on the course.

Each student is given one year to complete the course and allocated a tutor who they can contact at any time. You will see listed all three course contents which also lists the modules within each DLC course and the price of each DLC is on the Enrolment form.

Tracey is dealing with all homework and sending out the next set of modules to the students and you can call her with any queries on 07833 691809

Julie Parker
CSA Company Secretary
