

2025 CSA Awards Winners Revealed

The Commissioning Specialists Association (CSA) was delighted to have returned to London on the evening of Thursday 2nd October for the staging of its 10th Annual Awards Ceremony. With twelve awards categories in this year's programme, the entry process again produced some truly exceptional entries from right across the commissioning arena.

Hosted by footballing icon, Kevin Keegan OBE, and in keeping with the overall expansion of this annual awards programme, the Park Plaza, London Riverbank Hotel was the venue for the presentation dinner, during which professional endeavour, product innovation, skills development, engineering prowess and service delivery were all acknowledged and celebrated.

Operated by the CSA and produced by Touchwave Media, the awards programme acknowledges the skill, effort and sheer dedication of the people and businesses serving today's complex built environment. With sponsorship provided by a host of leading industry names, well deserved industry-wide recognition was given to those businesses and individuals that are excelling in their commissioning endeavours.

Finalists & Winners

Following a comprehensive judging process, which again combined the remote assessment and scoring of each entry with a virtual gathering of the judging panel, some 64 Finalists across the twelve award categories were determined. From these Finalists, the individual category Winners were announced, as follows:

Winner

- ASHFORD ENVIRONMENTAL SERVICES

CSA Special Recognition Award - **Sponsored by CSA**

Winner:

- Andrew Watkin - AIRTECH PREMIER

Congratulations go to all those who were selected as a Finalist, and particularly so to our highly deserving winners.

In addition to his highly engaging After Dinner Speech, which took full advantage of the supporting audio-visual set-up to showcase some key moments from his illustrious career, both on and off the pitch, Kevin also helped to deliver the main award presentations.

The CSA chosen charity for this year's event was The Alzheimer's Society and a healthy £3567.00 was raised through an entertaining 'Wheel of Fortune' game, the winner of which received a bottle of bubbly, £100 in cash, and an England football shirt signed by Kevin Keegan.

CSA Chairman, Keith Barker, commented: "This year's awards programme proved to be another huge success and once again provided an excellent forum through which to celebrate business and professional excellence right across our sector."

His colleague, and CEO of the CSA, Neil Burdess, added: "This year's entry submissions were once again of an extremely high calibre, making the whole judging process extremely challenging. It was particularly gratifying to see such strong submissions for the three new 'water treatment' categories. I would like to offer my sincere congratulations to all those who took the trouble to enter and would urge everyone engaged in the commissioning arena to they are suitably represented at next year's awards ceremony."

The call for nominations for the 2026 CSA Awards will open early in the New Year, so if you have not yet attended this highly respected event, or submitted an entry, please visit the website, and consider the options. Entries are sought across the twelve categories, which cover the achievements of both companies and the individuals working within them.

For the awards dinner itself, individual places, or tables of ten can be secured, with the package including reception drinks, a superb 3-course meal with wine, the awards ceremony itself and excellent post awards entertainment. It really is a night not-to-be-missed, providing a wonderful opportunity to engage with your peers and celebrate the achievements of this key industry sector.

For more information, visit the website www.csa-awards.co.uk or contact the awards programme producers, Touchwave Media, by phone on 07785 290034 or by email at andrew@touchwavemedia.co.uk.

Note to Editors:

About CSA

Established in 1990, the CSA is an association for the commissioning industry within the construction world. Its membership comprises commissioning industry companies, individual commissioning engineers, and associated companies (such as equipment manufacturers, instrument suppliers, etc.), who have a vested interest in ensuring that the commissioning function in today's complex built environment is carried out to a uniformly high standard.
